

OBJECTIVES

- Better understanding of LLLT Action (Multiple – Refer to biological effects)
- First global scientific survey
 - **Densitometry** : Capillicare®
 - **Anatomopatology** : easy scalp biopsy

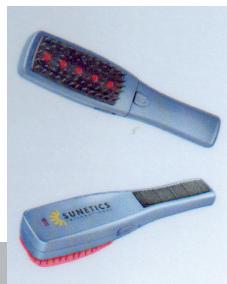

PR.Y.G. CRASSAS France
J. GEORGHY M.D. Australia
LLLST innovator (1993)

Clinical Parameters for Predicting Efficacy and Safety With Nonablative Monopolar Radiofrequency Treatments to the Forehead, Face, and Neck

Gordon Sasaki, MD; Barbara Tucker, RN; and Margaret Gaston
The authors are in private practice in Pasadena, CA.

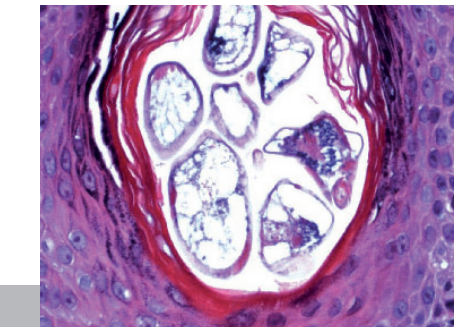

METHODS

Sunetic ® protocol

• **Densitometry** : Capillicare ®
D0, D+3 months, D + 6 months

• **Biopsy**
D0 D+3 months D + 6 months

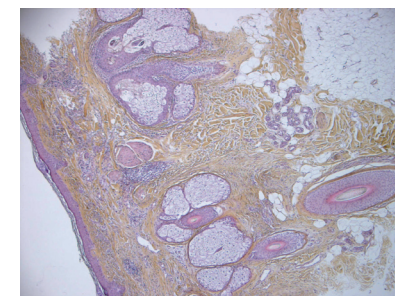

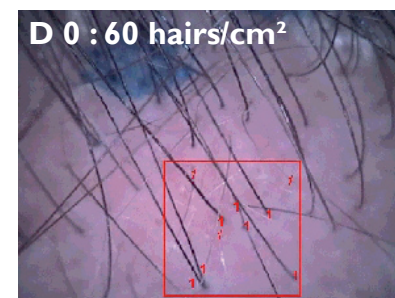

FIRST RESULTS : CONCLUSION

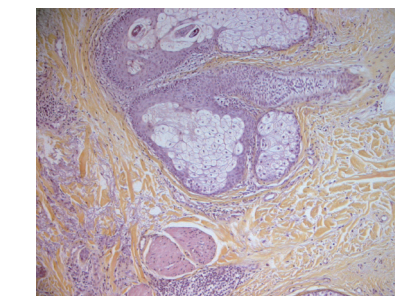

Conclusion not yet significant cohort (10 patients)

- **Density, thickness** : encouraging 20% improvement
- **Biological mecanism** : need further studies

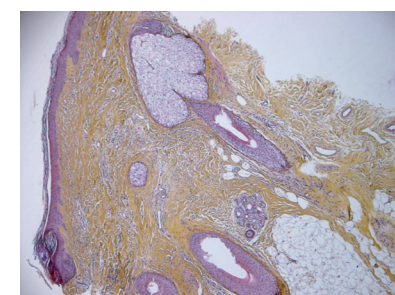

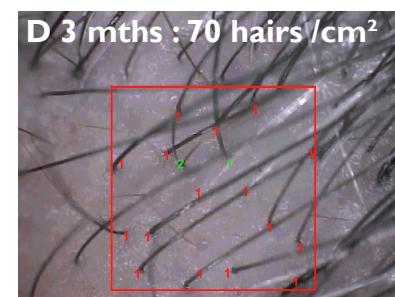

Before

Chronic
Folliculite

After laser

After laser :
no inflammation
enancement of
the bulb
